Oles Honchar Dnipropetrovsk National University

Oles Honchar Dnipropetrovsk National University (DNU) was founded in 1918 and now it is one of the most famous and prestigious higher institutions of Ukraine. The Rector of DNU – Nikolay Polyakov, Correspondent Member of Ukrainian Academy of Sciences, professor, honoured Worker in Science and Technique of Ukraine.

The University comprises 15 departments, 3 research institutes (Biology, Geography, Power Engineering), 31 research laboratories, the Centre of distance and part-time education, the Centre of pre-university preparation (preparatory courses, Regional Centre of lifelong learning "Prydniprovy"), Centre of postgraduate education, Regional Centre of intensive education of foreign languages and preparation to the level of knowledge assessment according to system of international certification, Centre of history and evolution of Ukrainian language, 5 colleges, 2 lyceums. On the base of the University works Dnipropetrovsk museum of rocket technology.

Academic and research processes at the University are provided at the very high level corresponding to the best national and international standards. More than 1336 teachers including 173 doctors of science, professors and about 704 candidates of science work at DNU. Among them there are 54 academicians.

Being a big educational and research centre DNU provides training of all qualification levels: Master's degree, Specialist's degree, Bachelor's degree. Post-graduate and doctorate degree programs are available for future researchers and university teachers. It also gives the possibility to obtain chosen education at the Centre of Distance and Part-time Education. Basing on the license the University provides training of more than 13 thousand students in 68 specialties.

For the last years the international activity of the University was notably livened up. Now there are 86 agreements and contracts on scientific and technical, educational and cultural cooperation between DNU and leading universities, research centres of Germany, USA, France, Poland, Turkey, Spain, Italy and other countries.

The Dean Office for Foreign Students was opened in 1989. Foreign students can study by contract basis at the Preparatory Department and at the main faculties of Dnipropetrovsk National University.

Preparatory Department provides 10-month Russian

language course for foreign citizens. During this time they also study Mathematics, Physics, Chemistry, Biology, Computer Sciences and other subjects. The whole academic process is approved by the Ministry of Education and Science of Ukraine and by the Rector of DNU. Textbooks adapted for foreigners and methodological literature are effectively used in studying process.

University offers a wide choice of specialties. Now students can study not only in Russian or Ukrainian but also in English. The following courses are available with **English medium of instruction**:

- 1) **Mechanics;**
- 2) **Aircraft and rocket building.**

The University is known to be one of the world's leading educational establishments in preparing experts for aircraft and rocket building which trains the specialists of highly-qualified level.

The specialties «**mechanics**» and «**aircraft and rocket building**» were opened in 1951. Studying there gives students an opportunity to get a huge experience taking part in the process of rocket building. During their practice the students work on the modern enterprises, in well-equipped laboratories and gain excellent knowledge in this area.

The list of faculties and specialties (bachelor degree)

Department	The direction of preparation
